

Dr. Kouros Azar Performs Skincare Treatment on Actress Mariel Hemingway

(Monday July 27,2020)- *Azar Plastic Surgery & Med Spa* based in Thousand Oaks, California is known for its friendly charm and innovative technology. Dr. Kouros Azar owner and founder recently performed two skincare treatments on his dear friend and Ernest Hemingway's granddaughter, Mariel Hemingway. In a recent treatment video Mariel explains why she chose to visit Dr. Azar stating, "Age happens especially to your face...Dr. Azar explained that these treatments are really along the lines of what I believe in because it's encouraging your own collagen production."

To get the most out of Hemingway's skin and natural collagen two skin treatments were performed by Dr. Azar. The first treatment being the Profound RF Treatment which focuses on rebuilding her own collagen to make new collagen, elastin and Hyaluronic acid, thereby awakening the natural regenerative processes of her skin, improving skin texture and tone. Additionally, Dr. Azar performed a second treatment called the Secret RF treatment which is performed around the eyes and forehead to reduce fine lines, tighten the lower eyelids and improve skin texture on the upper face.

Hemingway will begin to see results 5 weeks after both treatments and up to 6 months after as well. To maintain her skin Dr. Azar suggests using the professional skin care line (ZO) which is also sold at *Azar Plastic Surgery & Med Spa*.

Please note a treatment video featuring Mariel Hemingway and Dr. Kouros Azar is available to view upon request.
